

CONTRACT IS LET FOR \$20,000,000 HELL GATE BRIDGE

Structure With Longest Span
in the World to Be Finished
Within Three Years.

The American Bridge Company has just received the contract for the new Hell Gate Bridge steel work and approaches from the New York Connecting Railroad Company, of which Samuel R. R. is president. The bridge will be three miles in length and the largest of its kind in the world. Work upon the steel fabric will begin in Pittsburgh at once and the contract must be completed in two years and a half.

The New York Connecting Railroad is backed by the Pennsylvania Railroad and the New York, New Haven & Hartford, and after the new giant bridge is completed trains can be run by an all rail route from Washington to New England.

The new structure will be an arch bridge of the longest span in the world. The total cost will approximate \$20,000,000. There will be 15,000 tons of steel in the bridge between the two big towers at each end of the giant arch. Seventy thousands tons of steel will be made up in Pittsburgh and brought here by rail to complete the contract.

ATTACKS TAFT PEACE PLAN.

Oscar S. Straus Speaks for a Bigger Navy.

Oscar S. Straus at the dinner of the Baptist Social Union of New York in the Hotel Manhattan last evening strongly condemned President Taft's arbitration treaties and commended all plans for a bigger navy. In this as in other matters he said he agreed with Theodore Roosevelt. Mr. Straus also said:

"It is lucky for Italy that she did not attack Turkey near Constantinople, where the Turks would have had a free hand. The principles of international ethics have been violated by Rome's high-handed, buccannery methods. Twelve years ago Italy signed The Hague agreement. Look how carelessly she breaks it. It is fine for Taft to travel around the country talking peace, but we lost a great opportunity when

we did not offer our good offices to Italy and Turkey as an arbiter."

THORNLESS BLACKBERRY.

Luther Burbank Produces It After Ten Years' Experimenting.

SAN FRANCISCO, Nov. 2.—Luther Burbank, after ten years of experimenting, has been able to produce a black berry bush that carries no thorns.

Yesterday afternoon, while Burbank was showing a party of Australian boys about his gardens at Santa Rosa, he said:

"Now I will show you something about which nothing has been said as yet. It is the thornless blackberry. It has not been distributed yet, and possibly will not be for some time. Burbank broke off some of the branches and they were as smooth as silk. The fruit is said to be of exquisite taste and quality."

The New "Reducing" Model

NOTE the Expression
of this Shoe, Madam?
Long, "lean," gen-
tly undulating lines!

The eye attracted to
perpendiculars instead of to hor-
izontals.

Note the slender Ankle ef-
fect which results!

Note the narrow appear-
ance it gives to foot!

Then bear in mind that
your Dressmaker achieves just
such Slender effect on portly wo-
men by just such dexterous use
of perpendicular lines as are re-
vealed in this new "Spanish
Model."

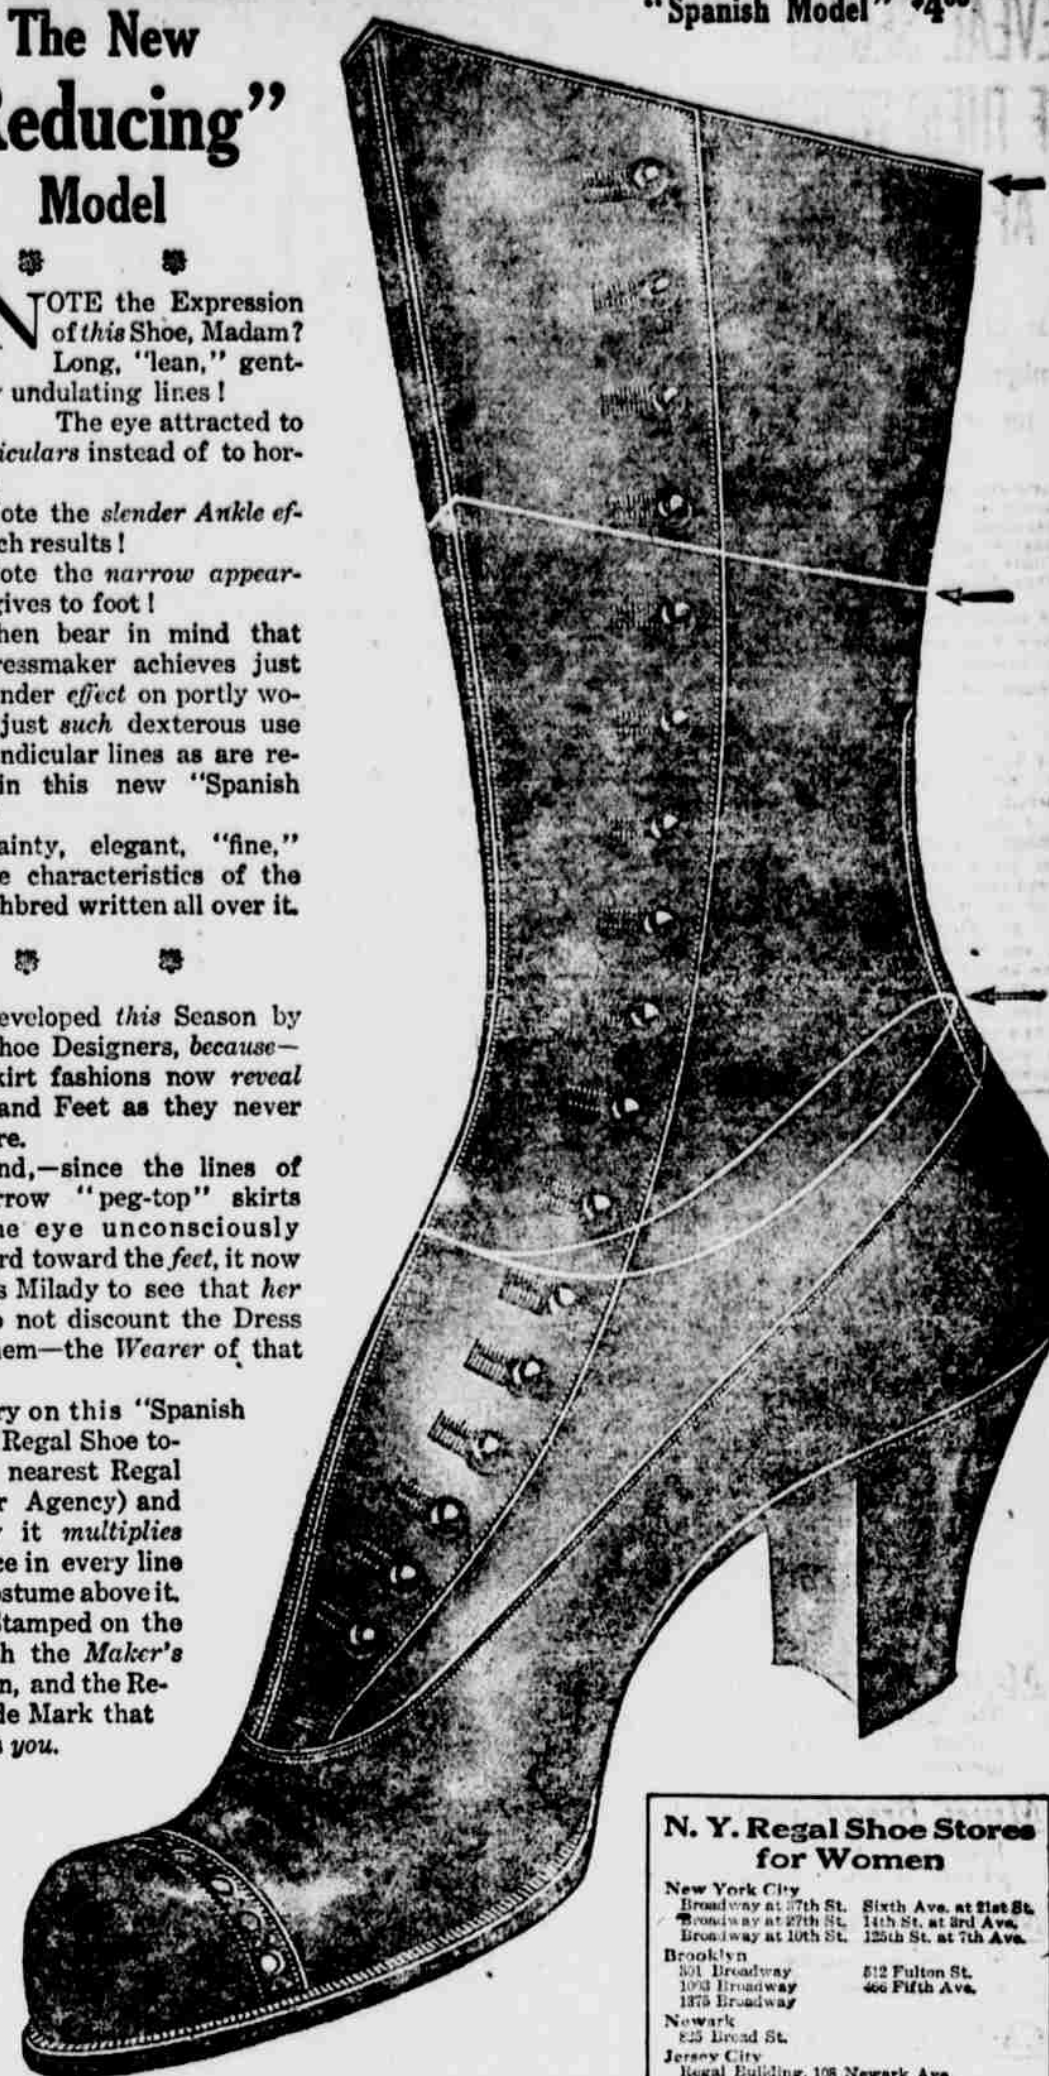

Dainty, elegant, "fine,"
with the characteristics of the
Thoroughbred written all over it.

Developed this Season by
Regal Shoe Designers, because—
Skirt fashions now reveal
Ankles and Feet as they never
did before.

And,—since the lines of
the narrow "peg-top" skirts
carry the eye unconsciously
downward toward the feet, it now
behooves Madam to see that her
Shoes do not discount the Dress
above them—the Wearer of that
dress.

Try on this "Spanish
Model" Regal Shoe to-
day (at nearest Regal
Store or Agency) and
see how it multiplies
the grace in every line
of the costume above it.

Stamped on the
sole with the Maker's
valuation, and the Re-
gal Trade Mark that
protects you.

them, to an unusual extent.
For, despite our large sales of better
grade clothes up to \$60, the Brill Stores
are undoubtedly the largest and best
sellers of suits and overcoats at \$15 and
at \$20. And the reason is, obviously,
the unusual values to be had here in
clothes at these prices.

Overcoats—heavy, light and medium weights, newest models and an unlimited assort-
ment of rough fabrics in brown and gray mixtures, and in oxfords and blacks.
Suits—in English and conservative models, with browns and grays predominating.
